I am passionate about creating user centric, functional, and visually pleasing designs. Creative problem-solving is something in which I find great satisfaction. I pride myself on my excellent organization and competent soft skills, and I'm continually challenging myself to create and deliver quality work.

Erda Wood

S E E
P R O J E C T

Erda Wood represents a small carpentry business that sells handcrafted wooden products and offers carpentry services for customers. It is both a platform for people who are interested in purchasing individual items, as well as for people looking for a team of professional carpenters who can take on large scale projects. The main focus of this project was on branding, user testing and visual design.

Scintilla

S E E
P R O J E C T

The goal of Scintilla is to let users easily search for and book services around them related to holistic-wellbeing, such as wellness and yoga studios. The app features an easy to use map, the ability to bookmark services, and recommendations based on the user's interests. This project focused heavily on UX research, user persona creation, user flows, usability testing, and responsive design.

Man Tau

V I S I T
W E B S I T E

A minimalistic website I created for a musician to serve as his home page where he can promote his music. It was built with HTML, SCSS, JavaScript. The project features both a light and a dark version which can be toggled on and off with a button, and it is also fully mobile responsive.

CareerFoundry - UI/UX Design
October 2020 - Present

A ten-month intensive course with a focus ranging from user research and testing, persona creation, and visual design for native and responsive web applications. This program also included hands-on training spanning from user journeys to usability testing, to wireframing, prototyping, and final deliverables.
